

THE TRANSITION TO HYBRID LEARNING REPORT

NOVEMBER 2021

Prepared by

COMMUNICATIONS AND
PUBLIC RELATIONS

INTRODUCTION

At the beginning of this academic year, the Ministry of Education, Culture, Science and Technology (MoECST) postponed the transition to hybrid learning, due to a sharp rise in COVID-19 cases and the absence of approved vaccinations for our students. At the time of that announcement, the Ministry had also pledged to work on reopening some schools for hybrid learning, come October 4th.

In keeping with that pledge and thanks to vaccination efforts, the MoECST announced on October 1st, 2021, that some schools would be given the Green Light to transition to hybrid learning beginning on October 4, 2021.

Here's an overview of how that's going...

EXAMINING WHERE WE ARE...

As of November 1st 2021,

139

Schools have applied to open for hybrid learning

127

Schools have been approved to open for hybrid learning

61

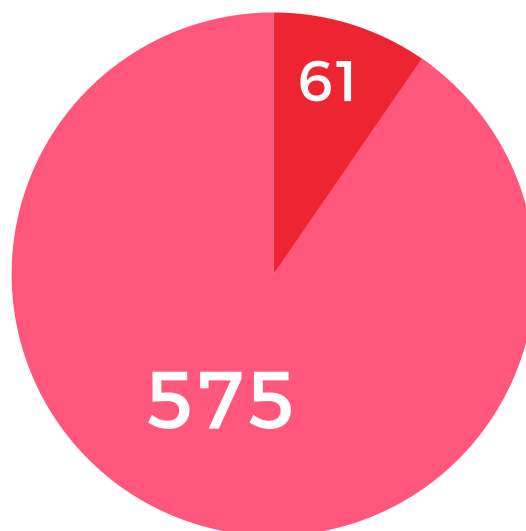

Schools have opened for hybrid learning

Status of our Schools

As of November 1, 2021, **all schools are open** and are providing education to our children.

575 or 90.4% of all schools are open for remote learning and 61 or 9.6% of all schools are open for hybrid learning.

Open for Hybrid Learning
